Profile

Web Development Enthusiast with hands-on experience in React, Firebase, Tailwind CSS, and core web technologies. Passionate about clean code, design consistency, user experience, and solving real-world problems through efficient and reliable web solutions. Eager to keep learning and contribute to impactful projects in collaborative environments.

Education

- Bachelor of Computer Applications, GLA University, Mathura (Aug 2023 - May 2026)
- 12th Grade, Ramanlal Shorawala Public School, Mathura – CBSE (Apr 2022 - Mar 2023)
- 10th Grade, Mathura Public School, Mathura – CBSE (Apr 2020 - Mar 2021)

Projects

- **Job Genie – AI Interview Coach:** Built a web app that generates tailored interview questions for specific job roles and provides instant AI-driven feedback through a user-friendly, responsive platform for realistic interview practice. Developed using *React, Tailwind CSS, and Gemini 2 Flash API*.
Demo Link: job-genie-lovat.vercel.app
- **Bookify – Online Bookstore:** Built a full-stack web app where users can list books for sale, track orders, purchase books and make payments online. Implemented real-time database operations, authentication, and responsive UI components. Developed using *React, Firebase, Tailwind CSS, Razorpay and Cloudinary*.
Demo Link: bookify-lyart.vercel.app
- **Eventique - Event Booking System:** Collaborated as a UI Developer on a MERN-based academic project. Designed a responsive interface where organizers create events, admins approve them, and users book tickets, make secure payments, and receive instant QR tickets. Developed using *React and Tailwind CSS*.
